

**Executive Assistant
Kasi Flores**

Kasi Flores is a recent graduate of the University of North Texas where they received their BA in Theatre with a Concentration in Design/Tech. While at UNT they were an assistant designer on productions of *Fabulation* and *Imagine*, as well as the set designer for *The Memory Project*. Through their time in college, Kasi also received the opportunity to be a camp counselor and technical director for UNT's Theatre Summer Camp for 6th-12th graders. Here Kasi was able to develop their passion for bringing fun and engaging arts education to the lives of children.

They also gained experience working in and around the DFW area throughout college. Kasi has worked as an assistant carpenter for DIFFA Dallas, as the props master and assistant scenic designer for Cry Havoc Theater's *Babel*, as a scenic designer for an album release party, and as a makeup artist for the short film *Never Knows Best*. Outside of their time in the theatrical world they served as the education coordinator for ARThaus, a creative space and art gallery dedicated to facilitating a thriving art community within Denton, TX.

Through all of these combined experiences, Kasi has learned the impact that art can have on the lives of others and they are excited to get to work for an organization that creates meaningful works every day.
